Course Description
This course provides an overview of experimental moving images from the European "city symphonies" and abstract films of the 1920s to the flowering of the American postwar avant-garde; from the advent of video art in the 1960s to the online viral videos and digital gallery installations of today. The class thus surveys the artists, institutions, and viewers that have fostered moving image art throughout the history of film, and asks students to consider the historical, social, and institutional forces that have engendered oppositional, political, and aesthetically radical cinemas. A central premise of the course is that technological developments such as video and new media are not historical ruptures, but rather, part of an ongoing tradition of moving-image art making. Other core topics will include the consideration of the meaning and use-value of the avant-garde, the issue of "artists’ film and video” as opposed to “experimental film,” and the thorny relationship between avant-garde and commercial filmmaking.

Course Objectives:
- To survey the varieties of experimental moving images produced by a variety of technologies, including film, video, and digital media.
- To learn to analyze these works in terms of form, content, and context.
- To explore the relationships between past and present experimental media forms and practices.
- To investigate the relationships between experimental and commercial cinema.

**Course Requirements:**

*Attendance, Punctuality, and Late/Incomplete Assignments*

You need to be on time to class every week and stay the entire period. Attendance to all lectures and screenings is mandatory. We will take attendance in each class and screening. Absences and tardiness will be penalized, so make attendance a top priority.

You are allowed three excused absences. Beginning with the fourth absence, your overall course grade will be lowered by a full letter grade (e.g. A to B) for each unexcused absence. This means that if you miss more than six classes, you will fail the course.

Please be respectful to your fellow students and arrive on time. If you arrive more than 15 minutes late, you will be considered absent for that class. If you absolutely must miss a class meeting, please contact me at least 24 hours in advance in order to make alternate arrangements.

All written work must be handed in/posted on time except in the case of serious illness, medical emergency, or some other compelling mitigating circumstance. Should you submit an assignment after the due date, your grade for that assignment will decrease by a full letter grade for each day that it is late. Should you fail to submit an assignment entirely, you will receive an F on that assignment and, consequently, you will receive a lower grade for the course.

*Lectures, Screenings, and Discussions:*

Please silence your phone. Please do not text, IM, tweet, or read the internet during lectures or screenings. The use of laptops must be restricted to taking notes only.

- In addition to the weekly feature screenings, many screenings will take place in class and/or will be posted online.
- Discussions of the weekly feature screenings will occur on Fridays.
- Some of the films screened in class may be considered objectionable.

You do not have to talk all of the time in class (nor should you), but you absolutely must speak up on a regular basis in order to receive an excellent participation grade. This goes for your participation online as well. Be a good colleague and engage with your fellow students—the idea is to learn from one another.

*Reading Assignments*

Because of the rapid pace of the schedule, it is absolutely essential that you stay on top of the reading assignments and complete them before the start of each class. Unless otherwise noted, readings should be completed before class on Monday. Reading assignments are assessed through classroom participation, as well as the occasional quiz.
In addition, I will be suggesting additional readings every week on the class website.

**Writing Assignments**  
You will be completing a number of blog posts of approximately 300-400 words throughout the semester, in response to prompts provided by the professor. All blog posts will be assessed on an A-F scale, according to the criteria included below.

A weekly blogging schedule will be established in the second week of class.

Each week, blogging will be structured by roles:

*First Readers*: These students are responsible for posting initial questions and insights about the week’s material (readings/screenings). These must be posted to the class blog by noon on Thursday.

*Respondents*: Students in this group will build upon, disagree with, or clarify the first readers’ posts. These must be posted to the class blog by 11:59pm on Thursday night.

*Searchers*: Students in this group find and share at least one relevant online resource (an article, a video, etc.). In addition to linking to or embedding the resource, the searchers provide a short evaluation of the resource, highlighting what makes it worthwhile, unusual, or, if appropriate, problematic. These must be posted to the class blog by 11:59pm on Thursday night.

The fourth group has the week off in terms of blogging.

You are expected to take your blog posts seriously. Pick interesting clips and topics, and be creative, insightful, nuanced, and clear in your thinking and writing. You are encouraged to post more often than is required for your grade. Such additional participation will be duly noted and factored into your final grade.

You will also be writing two essays: one midterm essay (5-7 pages), and one final essay (10-12 pages). More detailed information about the essay assignments will be distributed at least one week before the deadline.

- Papers are due as specified on the syllabus.
- In lieu of writing a final paper, students may also elect to complete their own experimental media project, in consultation with the professor. The project must be accompanied by an artist’s statement
- Weekly blogging will be suspended on weeks when papers are due.
- The final paper or project is due on the date and time of the scheduled final exam: Wednesday, December 12th, at 11:30am.
Grading
Your grade for the course will be calculated as follows:

- Participation and quizzes: 20%
- Blog posts: 25%
- Midterm essay: 25%
- Final essay: 30%

All assignments will be graded on an A-F scale.

When calculating final grades, I convert letter grades to a simplified 4.0 scale:

\[
A = 4 \quad B = 3 \quad C = 2 \quad D = 1 \quad F = 0
\]

If you are curious about the criteria I employ when grading blog posts, please refer to this chart developed by Professor Mark Sample of George Mason University:

<table>
<thead>
<tr>
<th>GRADE</th>
<th>CHARACTERISTICS</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td><strong>Exceptional.</strong> The blog entry is focused and coherently integrates examples with explanations or analysis. The entry demonstrates awareness of its own limitations or implications, and it considers multiple perspectives when appropriate. The entry reflects in-depth engagement with the topic.</td>
</tr>
<tr>
<td>B</td>
<td><strong>Satisfactory.</strong> The blog entry is reasonably focused, and explanations or analysis are mostly based on examples or other evidence. Fewer connections are made between ideas, and though new insights are offered, they are not fully developed. The entry reflects moderate engagement with the topic.</td>
</tr>
<tr>
<td>C</td>
<td><strong>Underdeveloped.</strong> The blog entry is mostly description or summary, without consideration of alternative perspectives, and few connections are made between ideas. The entry reflects passing engagement with the topic.</td>
</tr>
<tr>
<td>D</td>
<td><strong>Limited.</strong> The blog entry is unfocused, or simply rehashes previous comments, and displays no evidence of student engagement with the topic.</td>
</tr>
<tr>
<td>F</td>
<td><strong>No Credit.</strong> The blog entry is missing or consists of one or two disconnected sentence.</td>
</tr>

Academic integrity:

Violations of academic integrity will not be tolerated. Academic dishonesty is not allowed in any form. Plagiarism (quoting, presenting, or paraphrasing someone else’s ideas as if they were your own without appropriate footnote and bibliographic citation) is a serious academic offence and will result in a grade of F. Do not submit material found on websites or from online sources as your own – you will receive an F. Discussing and sharing your ideas with your classmates, peers, friends, etc. (live or online) is highly recommended; the work you turn in, however, must be of your own creation. If you do not know how to properly cite sources in an academic paper, speak with your professor and/or a college librarian. In addition, any identified case of academic dishonesty will immediately be reported to the University.

For more information, please refer to the definition of “academic misconduct” included in the Georgia Tech honor code, available online at:
